DEMOCRATIC LANDSLIDE

Wilson and Marshall Carry
40 Out of 48 States

New York, Nov. 6.—Returns up to a late hour seemed to assure Wilson and Marshall of 40 votes in the electoral college. Iowa and Kansas which, with Minnesota, South Dakota and Wyoming, were in the "doubtful" column during the day, seemed almost sure to-night to swell the Democratic total in the final alignment of States. Possibilities of a further gain remained for Wilson through the accession of both Wyoming and Minnesota. In the former State he led Taft by a small margin, with one-third of the vote tabulated, and the latter was a few hundred votes ahead of Roosevelt in a similar proportion of the total.

On the other hand, late figures from South Dakota tended to assure the State to Roosevelt, the Progressive candidate, leading by a fair margin and maintaining his lead fairly well on added returns. Only the uncertainty of a few close States whose electoral vote in no way can affect the election of Wilson and Marshall, speculation over the popular vote of the three presidential candidates and the complexion of the Legislatures that will name United States Senators held interest to-night in the final returns of yesterday's general election. The total of the Republican electoral college apparently was fixed at the 12 votes of Idaho, Utah and Vermont, but the footing of the Wilson and Roosevelt flickered alternately during the afternoon and night as late returns from Iowa, Kansas, Minnesota, South Dakota and Wyoming placed them in the "doubtful" column. President-elect Wilson had 387 certain votes in the electoral college, Col. Roosevelt 89 and President Taft 12. All of the doubtful States except South Dakota gave more or less certain indications during the night of landing in the line of Wilson electoral votes, while South Dakota's returns showed a general trend toward a Roosevelt plurality.

According to Associated Press dispatches the following States will give their electoral vote to Gov. Wilson:

Alabama	12
Arizona	8
Arkansas	8
California	13
Colorado	7
Connecticut	7
Delaware	3
Florida	8
Georgia	12
Idaho	12
Illinois	24
Kansas	12
Kentucky	12
Louisiana	12
Maine	8
Maryland	12
Massachusetts	12
Minnesota	12
Mississippi	12
Missouri	12
Montana	12
Nebraska	12
Nevada	12
New Jersey	12
New Mexico	12
New York	36
North Carolina	12
North Dakota	12
Ohio	12
Oklahoma	12
Oregon	12
Rhode Island	12
South Carolina	12
Tennessee	12
Texas	12
Vermont	12
Virginia	12
West Virginia	12
Wisconsin	12

Total 413
Col. Roosevelt carried the following States: 20
Iowa 3
Kansas 12
Michigan 12
Washington 12

Total 74
The electoral college vote, as given by the Associated Press, gives Taft a single State, Vermont. If he carries any other State they will be among the best he has, including Idaho, or 12 of those listed as doubtful, including New Hampshire, Pennsylvania, South Dakota and Wyoming.

House and Senate
Washington, Nov. 6.—With an overwhelming Democratic majority in the House of Representatives,

senators, returns today indicate a probability of the success of a sufficient number of Democratic Senatorial candidates to give the Democrats control of both branches of Congress. There, however, will be sufficient uncertainty regarding the Senate to make the situation indefinite.

The undecided character of the outlook concerning the Senate is due to the fact that in order to outline definitely the prospect, it is necessary to have returns on the Legislatures from various States, which, owing to the fact that the members of the Legislature are counted among minor offices are generally among the last to be received.

The election Tuesday shows that the people take the third term somewhat seriously and that down in their hearts they do not want any man for more than two terms.

Wanted—Someone to fill the various offices that will be vacant as the result of the election Tuesday.

Fenwick
Miss Ruby Anderson and daughter, Alice, of Gethsemane, has returned home after a few weeks visiting with friends and relatives here.

Mr. and Mrs. Will Nally and family visited at McKville Sunday.

Mr. Lawrence Hagan was the guest of his sister, Mrs. Stanley Rogers, Wednesday and Thursday.

Mrs. Rose McAllister and Mrs. Teresa Graves were in Springfield Monday on business.

Miss Della Logsdon's visiting Miss Mary Jones this week.

Miss Della Ray Gregory was the guest of Mrs. Frank Martin at Springfield, Saturday and Sunday.

Mr. Hugh Leachman and wife spent Saturday and Sunday with Mr. and Mrs. S. Gilbert, Dodge, at Valley Hill.

Mr. A. L. Litsey and family attended the reunion of the Litsey family, given at Mr. Will Fenwick's, Sunday.

Mr. R. B. Leachman and wife visited relatives, at Lebanon, Sunday.

Mr. John S. Stith is visiting Mr. and Mrs. A. L. Litsey at Valley Hill.

Mr. W. D. Litsey, of T. T. Lewis with mother, Mrs. Powell, at McKville.

The ice cream supper given at Mrs. Alice Thompson's was largely attended and a neat sum was realized for the church.

The First Thimble.
The thimble of this sewing was invented in the year 1584 by a gallant young Dutch goldsmith of Amsterdam who devised the "thimble" as this was its original name in order to protect his sweetest's thumb tips when she was engaged in sewing on cotton. The "thimble" had, however, become a "finger-bell," but shape only little change, but its use it since the sewing machine the first thimble on the thumb of this lady love.

OUR NEXT PRESIDENT

TRUANT OFFICER WINS BOYS

Does at Them in an Entirely New Way and They All Think Him the Best Ever.

Floresville, Pa.—One of the claims made with much pride by the local school authorities is the almost complete absence of truancy, and those who know give much of the intelligent activity of the town's truant officer, William S. Armstrong, and the popularity he has won among pupils. There is probably not another truant officer in the state who has such a record of achievement in his line as has Officer Armstrong, and for five years he has worked with singular effectiveness.

Truancy used to be much in vogue among the growing practice. Speaking of his early experience, and describing his methods, Officer Armstrong said: "I did not go about my work in the way of the old truant officer. I went to work quietly, got acquainted with the habitual truants, visited their homes and sought out their parents."

"I talked with the parents, and tried to arouse in them some interest in their boys' school work, and asked them to give some sign of interest and encouragement to the boys."

"I learned the location of all the favorite swimming holes, the nut groves and the most popular resorts where boys would go to play or loaf. I visited the swimming holes, not only on school days, but on Saturday and Sunday for the purpose of joining them in swimming and getting better acquainted. I have grown to know all of the 'live wires' among them intimately, and I think they are my friends."

Six Years to Construct Clock.
A clock constructed throughout of glass is the result of six years' work on the part of a Bavarian glass polisher. The plates and pillars which form the framework are of glass and are bolted together with glass screws. The dial plate, hands, minute and hour wheels are of glass and glass wedges and pins are used for fastening the various parts of the clock mechanism.

Real Need of the Age.
We already have a thousand men who can make money to one man who can think and make other men think. —Century Magazine.

Progress a Matter of Ideals.
The progress of man has been measured by the progress of his ideals.

The Vindictive Sheep.
The sheep is the most vindictive animal on the farm to respond to a little attention and regular feed. The fact is, the sheep is a very sensitive creature and is often more easily offended than a man.

There is no animal that the farmer can handle that will turn fall wages and a little corn into money faster than a sheep.

Old sheep when taken to the dairy at season and then on good pasture and given a little corn feed a day will show extraordinary improvement. This is the time to get the best of them.

BRONCHILINE is the ideal expectorant. We're not asking you to experiment with some other remedy. BRONCHILINE and only BRONCHILINE is the best. Keep a bottle in your home—two cost 25c and 50c each.

Remington-Union Metallic Cartridge Co.
Steel Lined SHOT SHELLS
Each and Every One a Speed Shell

The speed that breaks your target power the trap. That's why Remington-Union Steel Lined Shot is the most accurate. It has been tested for years.

The speed that gets that mile-a-minute "kick" with a shorter lead—that's why it takes over 50,000 rounds to handle the demand for Remington-Union Steel Lined Shot.

The shooting fraternity are speed men. They know how smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in Remington-Union shells is gaged in steel. This lining is designed to give the exact compression necessary to send the shot to the mark quickest. It has been tested the same speed in every gage.

The steel lined nature of the powder charge is so gaged that the powder charge will not drive shot. Waste powder—no more!

Remington-Union Arms and Rifle Shot Steel Lined Shot is the only one of its kind. Remington-Union Metallic Cartridge Co., 299 Broadway, New York City.
